

Marketing Automation For Salesforce

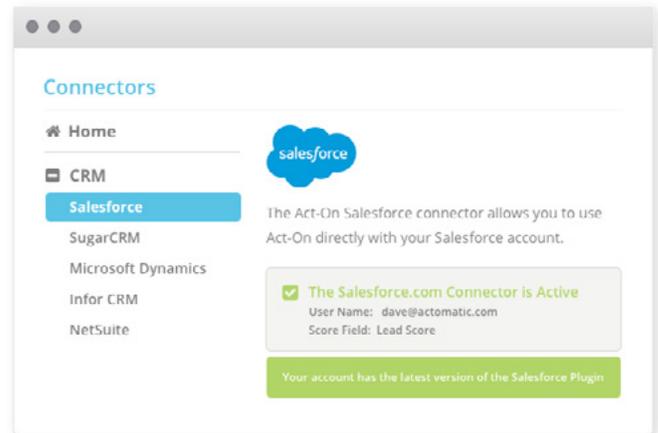

Easy, Automatic Synchronization

Act-On's seamless integration with Salesforce makes it easier for marketing to deliver more highly qualified, sales-ready leads to the sales team. Using Act-On's native, out-of-the-box integration, you can set up automatic, bi-directional synchronization between Salesforce and Act-On – easily, and in minutes. Sync your Salesforce leads, contacts, reports, campaigns, opportunities, accounts, and even custom object data in Act-On for tighter segmentation and more targeted marketing.

Sales & Marketing Alignment

Right from within Salesforce, your sales team gets insight into each buyer's behavior plus valuable prospecting tools to help generate more business. Act-On for sales includes:

- **Hot Prospects** – a prioritized list of leads and contacts who are currently the most active and engaged
- **Act-On Email** – allows your sales team to quickly and easily send trackable emails (one or many) and see exactly who opens and click on the messages they send
- **Act-On Activity History** – lets your sales team see the digital footprint of their leads and buyers, uncovering what they're most interested in.

Keep Your Leads Warm with Email Marketing & Nurturing Campaigns

Email remains the hardest-working marketing tool, and the most productive, with an ROI that outpaces every other tactic. With marketing automation, you can:

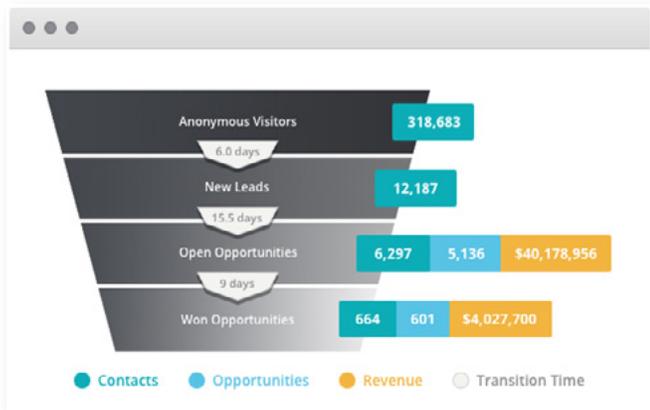

- Create and launch attractive, high-quality campaigns with a simple drag-and-drop interface
- Segment lists dynamically and apply conditional branching in your lead nurturing campaigns
- Match the message to the recipient on the fly, with dynamic content
- Optimize your campaigns with A/B testing
- Bi-directionally sync your opt-outs with Salesforce
- Automatically assign a rep a Salesforce task when a lead reaches a specific point in a nurturing campaign
- From within Act-On, create a Salesforce campaign on-the-fly or attach to an existing campaign allowing you to add people to the Salesforce campaign automatically

Act-On supports Salesforce Professional Edition and above.

See Campaign Performance with Reporting & Analytics

You can measure results in real-time and get insight into campaign performance, including customizable Funnel Reports, Revenue Impact (ROI), Revenue Attribution (First & Multi-touch) and Google AdWords reporting.

This lets you calibrate your campaigns based on what's working and what isn't, and improve future efforts. You can use Act-On mobile to access your reports on the go.

This view of the customizable Funnel Report illustrates the tracking of new Anonymous Visitors as conversions to Known Visitors; New Leads; Open Opportunities; and new, closed, Won Opportunities.

Prioritize Leads with Lead Scoring

Leverage Act-On lead scoring to identify and prioritize sales-ready leads based on points scored for demographic and firmographic data, and behavioral touch points including email, website, event attendance, and form submissions. Your sales team will know who prospects are, what they care about – and what to say – during the sales call.

Get the Most from Your Website with Website Visitor Tracking

See actual names of people and companies visiting your website, and what they're looking for. Go beyond page views and bulk visitor statistics provided by traditional website analysis tools to get real marketing and sales intelligence to boost your sales.

Create Your Own Forms & Landing Pages

You won't need technical resources to build customized and branded forms and landing pages. You can easily feed form submissions into Salesforce, in real time, without risk of duplicates. Use A/B testing to identify and automatically select the best-performing forms and landing pages, to maximize conversions. You can quickly optimize SEO with Act-On's SEO audit tool.

Reach Out with Social Media

Act-On's social media tools help you align your social media strategies and tactics with your other channels, so your messaging is amplified and your branding is consistently reinforced in all the places a prospect may find you.

Get Found & Get Known with Act-On Inbound

Since 80% of sales begin with search, you can help your buyers find you by using Act-On's SEO audit tool to optimize your website, landing pages, and blogs for organic search. Then, track the effectiveness of your paid search with Act-On's native Google AdWords integration. You'll know for certain which AdWords are generating the most ROI for your company.

About Act-On Software

Act-On Software is a marketing automation company delivering innovation that empowers marketers to do the best work of their careers.
